Project name	Project – sign with smart connectivity for better road safety
Maximum marks	2 marks

Customer problem statement template:

Many factors increase both the risk of road traffic crashes and the risk of death or injury they result in. Driving at speed significantly increases both the likelihood of a crash occurring and the severity of its consequences. For every 1% increases in mean speed there is a 4% increase in fatal crash risk. Increased traffic can increase carbon emissions and other pollution. Land use for road can damage built and natural environment, impose mortality on wildlife if habitats are severed, and construction has associated environmental costs.

I am	People
I'm trying to	<ul style="list-style-type: none">• Never drink & drive.• Always wear seat belt.• Never break red signal.
But	<ul style="list-style-type: none">• State that you should never use a mobile phone while driving. Wear seat belts and helmets.• Walk carefully on the sidewalks and only cross on the zebra crossing. Be careful of speed limits.
Because	<ul style="list-style-type: none">• Do not drive at excessive speed and try to enhances the general awareness so risks of traffic accidents can be reduced.• One must also check the vehicle health regularly and its maintenance pars to eliminate any potential risks.
Which makes me feel	<ul style="list-style-type: none">• Driving without a valid license.• Driving without valid insurance.
